

# 6S Series Masks

*Sleep Freely. Breathe Easily*

## Full Face Mask (F6S)

---

Introducing the F6S Full Face Mask, designed for great comfort and reliability. With an innovative over-the-head tubing connection, this mask ensures a secure seal while allowing you to sleep in various positions, all night long. In clinical comparisons, users have reported higher satisfaction with this mask's ability to prevent leaks and provide a restful sleep experience.

The F6S Full Face Mask is engineered to support various sleeping positions, ensuring a reliable seal throughout the night, preventing leakage. Its unique under-the-nose cushion design allows for easy reading in bed—even with glasses on—while minimizing pressure on the nose bridge to reduce discomfort and marks, leaving you feeling refreshed the next morning.

#### 360-Degree Tubing Freedom

The over-the-head tubing connection allows for unrestricted movement, ensuring a good night's sleep.

#### Soft Tube Frame

Air flows gently into the cushion through the elbow for enhanced comfort.

#### Lightweight Silicone Cushion

Designed with minimal pressure on the nose bridge for added comfort.

#### Quick-Release Elbow

Easily disconnect the mask during the night without removing it.

#### Open Frame Design

Provides an unobstructed view for reading, watching videos, or wearing glasses.

#### Safe Design

No magnetic buckles, reducing potential risks.

## Nasal Mask (N6S)

---

Discover the N6S Nasal Mask, a sleek and efficient design offering a reliable seal for uninterrupted sleep. The over-the-head tubing connection ensures that you can sleep comfortably in various position while reducing noise and providing a peaceful experience for both you and your bed partner.

The N6S Nasal Mask is optimized to prevent leakage and provide a secure fit throughout the night, even as you shift positions. Its ergonomic design reduces pressure on the nose bridge, ensuring comfort and reducing the likelihood of indentations or soreness upon waking.

### 360-Degree Tubing Freedom

The tubing connection on top of the head ensures full mobility throughout the night.

### Soft Tube Frame

Compressed air flows smoothly into the cushion, enhancing comfort.

### Lightweight Silicone Cushion

Gently supports the nose, minimizing pressure and offering a comfortable fit.

### Quick-Release Elbow

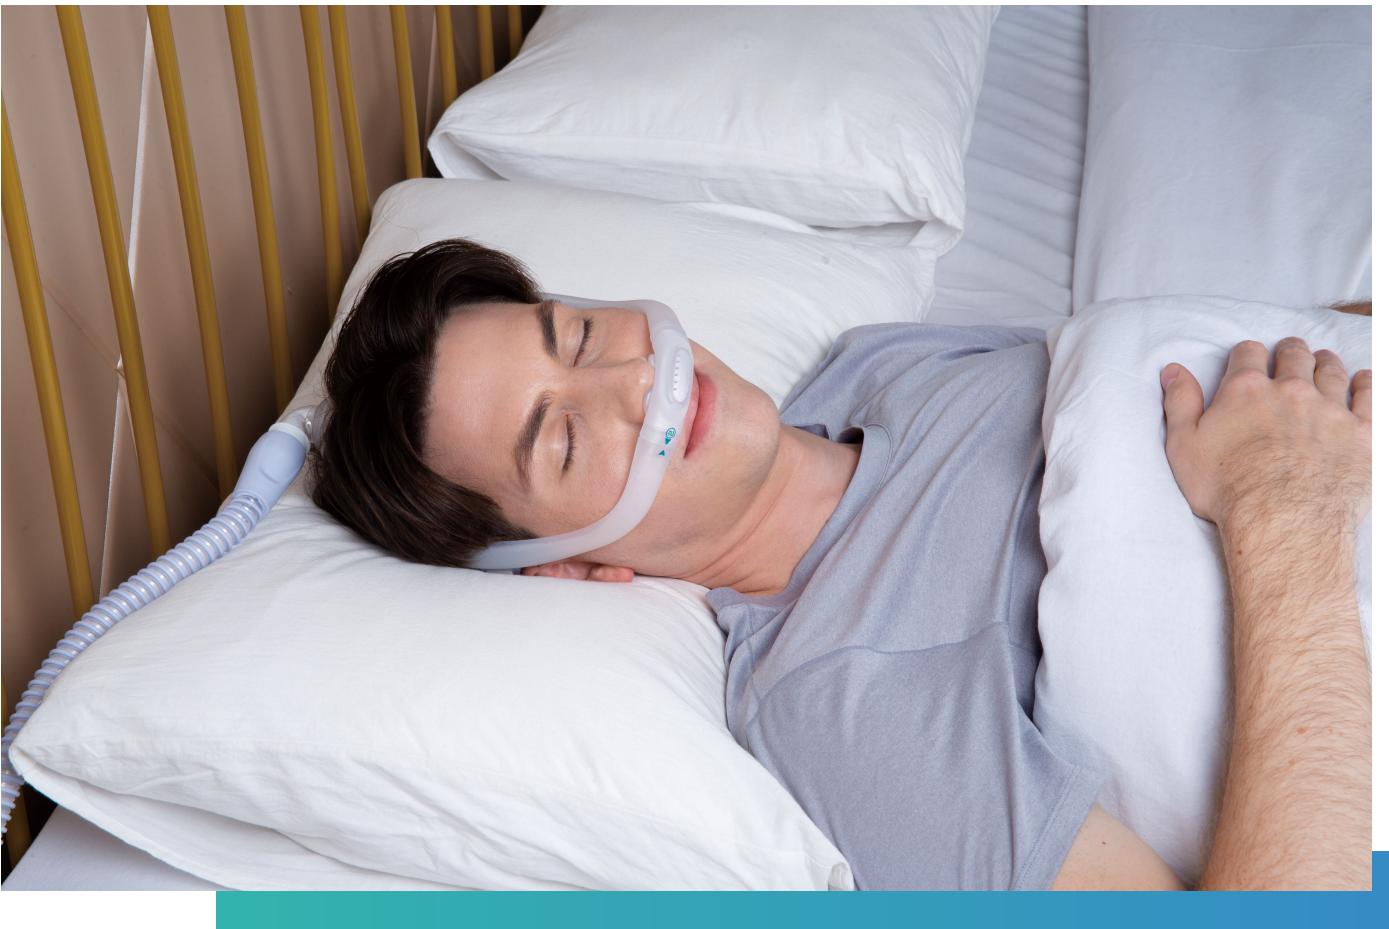

Easily detach the mask without removing it when getting up at night.

### Open Frame Design

Allows clear vision for reading, watching videos, or wearing glasses.

### Whisper-Quiet Airflow

The annular airway reduces noise, ensuring a peaceful environment for you and your partner.

## Nasal Pillows Interface (P6S)

---

Introducing the P6S Nasal Pillows Interface, a lightweight and quiet mask designed to deliver a secure seal with minimal interference. This mask is ideal for users seeking a comfortable, unobtrusive option for a peaceful night's sleep.

The P6S Nasal Pillows Interface is perfect for various sleep positions, providing a stable seal throughout the night—even for side and stomach sleepers. Its open frame design ensures you can read or watch videos comfortably, without the mask obstructing your view or interfering with glasses.

#### 360-Degree Tubing Freedom

Over-the-head tubing connection ensures free movement during sleep.

#### Soft Tube Frame

Facilitates smooth airflow to the cushion for greater comfort.

#### Interchangeable Silicone Cushions

Switch between the N6S nasal mask and P6S for a customized fit.

#### Quick-Release Elbow

Detach the mask without removing it for easy nighttime adjustments.

#### Open Frame Design

Clear visibility for reading, watching videos, or wearing glasses.

#### Whisper-Quiet Airflow

Designed to minimize airflow noise, providing a peaceful night for both you and your partner.
